COUNTRY DIRECTOR'S MESSAGE

Dear Friend,

I have the privilege to introduce to you ADRA Myanmar's 2016 Annual Report.

During last year, ADRA Myanmar had been blessed with the opportunity to work with an important number of strategic partners who trusted in our work. This is why we were privileged to implement more than twenty projects throughout the country, benefiting over 500,000 people through the commitment, dedication and hard work of our team.

We are aware that we are living in challenging times where natural disasters and hazards seem to be more recurrent. During 2016, Myanmar was hit by heavy monsoonal rains displacing near half a million people from eight States and Regions. Thanks to the generous heart of our partners, we were able to respond to the emergency and contributed to alleviating the suffering of thousands of victims. This coming year we commit ourselves to improve preparation and prevention strategies so that our interventions are relevant and positive to those affected.

In 2016, ADRA Myanmar received from our current partners recognition of our responsible action and appreciation for our work committing new funds for 2017 and beyond.

It has been said that a recipe for real transformation contains ten percent inspiration and ninety percent perspiration. ADRA Myanmar believes in the Transformational Change of people and their communities. We pledge everyday to contribute to the sustainable development of our beneficiaries walking together through this road of change.

We believe that God is the source of our inspiration who gives us the strength and capacity to develop our plans and activities. To Him be the glory for a successful 2016. Furthermore, we recognize and thank our donors and partners which have contributed to making a difference in the lives of thousands of people. To our team, we thank them for their commitment and dedication, and to our beneficiaries who believed in our work and made us part of their development and positive change.

Now, we invite you to enjoy this Annual Report.

Claudio Sandoval
Country Director

WHO WE ARE —

ABOUT ADRA

The **Adventist Development and Relief Agency** or **ADRA** is an international humanitarian non governmental organisation (NGO). With an active presence in over 130 countries, ADRA seeks to improve and promote development to alleviate those living in poverty and disaster. As a representative of the Seventh Day Adventist Church, ADRA is committed to being a literal representation of Jesus and his ministry. ADRA does not discriminate assisting anyone regardless of ethnicity, race, religion, gender or political affiliation.

ABOUT ADRA MYANMAR

ADRA Myanmar is an implementing office of ADRA and a registered and recognised NGO in Myanmar. Established in 1985, ADRA Myanmar has provided development and relief assistance throughout the country. With the head office located in Yangon, ADRA Myanmar works through sub offices to deliver projects to 13 States and Regions within the technical sectors of; sustainable livelihoods, education, health & nutrition and emergency response.

ADRA Myanmar seeks to develop partnerships with rural communities, country authorities, donors and partner offices within the ADRA network. We believe that honest and authentic relationships lead to harmonious partnerships which are based on natural respect and fairness. Within this environment, partnership mobilises demand-driven funds to assist those in need to realise their potential and become active partners of progress.

OUR MISSION

ADRA Myanmar works with people in poverty and distress to create just and positive change through empowering partnerships and responsible action

OUR SLOGAN

Strengthen and Empower
for a Future

OUR VALUES

RESPECT we show respect despite differences in race, religion, gender or affiliation

TRANSPARENCY we aim to be transparent through our work

INTEGRITY we demonstrate integrity by our actions

COMPASSION we harbour compassion for those we work alongside

ACCOUNTABILITY we are accountable for the projects we manage and beneficiaries we encounter

OUR GOALS

CULTIVATE Empowering Partnerships

ALLEVIATE and Reduce Poverty

CREATE Sustainable Livelihoods

FACILITATE Community Development

OUR IMPACT —

13 of 14 STATES/REGIONS | 501,138 BENEFICIARIES

During 2016, ADRA Myanmar expanded into 3 additional states and regions, doubled beneficiary numbers and delivered 24 projects. Condensing to define 4 major technical sectors, ADRA Myanmar's approach to development has seen progress in agricultural activities, emergency response to flood victims, improving education standards, supporting health services and workers, continuing to build positive relationships with donors/partners and government entities and foster a solid reputation amongst the national and international communities.

TECHNICAL SECTOR KEY:

SUSTAINABLE LIVELIHOODS

EDUCATION

HEALTH & NUTRITION

EMERGENCY RESPONSE

OUR HISTORY

60 YEARS OF SERVICE | 134 COUNTRIES IMPACTED | 1 ADRA

1956

The 'Seventh Day Adventist Welfare Service' (SAWS) first established in November 1956 by the Seventh Day Adventist church, is created to provide immediate and emergency relief and welfare.

1958-62

SAWS organises a relief shipment of supplies to 22 countries valuing at USD\$485,000 increasing 4 years later to 29 countries valuing at USD\$2.3 million within South America and the Middle East.

1970

SAWS begins to broaden its mission focus from disaster relief to long term programs that would lead to long term development practices.

1985

In January 1985, ADRA commences work in Myanmar with the local Seventh Day Adventist church taking an active part within the Myanmar Health Department establishing what we know today as ADRA Myanmar.

1983

SAWS changes once again to what we know today as the 'Adventist Development and Relief Agency' (ADRA) working in community development, food distribution, institutional development and ongoing disaster relief.

1973

As SAWS work expands, the name is changed to 'Seventh Day Adventist World Service' in order to best reflect the move into community development and not just welfare.

1992

ADRA Myanmar becomes registered with the Ministry of Home Affairs and builds a working relationship with the Ministry of Education Department for Technical Vocational Education (MoE-DTVE).

1997

ADRA becomes one of the leading NGOs in the world. ADRA International is established in the US and granted General Consultative Status by the Economic and Social Council (ECOSOC) of the United Nations.

2000's

ADRA Myanmar gains an MoU with the Ministry of Health and Ministry of Social Welfare Relief and Resettlement as well as building a strong working relationship with the Ministry of Agriculture, Livestock and Irrigation.

2016

ADRA Myanmar works in 13 of 14 States and Regions to deliver 24 projects to over 500,000 beneficiaries establishing 4 core sectors; sustainable livelihoods, education, health & nutrition and emergency response

2008

Cyclone Nargis wreaks havoc across Myanmar causing USD\$10 billion worth in damage. ADRA Myanmar works with international emergency funds to provide support and relief to affected communities.

Thein Paing's Story

As changes in climate took hold, unable to penetrate the soil, monsoonal rain caused widespread flooding resulting in an inability to rely on rain fed agriculture for farmers like Thein Paing in Myanmar's Central Dryzone, an area on the brink of desertification. When the SGRIP 'Sustainable Grazing and Irrigation Pilot Project' was implemented, Thein Paing received training in holistic grazing management practices - an innovative approach utilising goats, cows and sheep to contribute to rejuvenating the land by stirring and fertilizing the soil so that water is able to penetrate the surface.

"ADRA help us gain more knowledge and now we feel hopeful that life will get better. I hope that other children in our village will have an opportunity for a better life."

- Thein Paing

SUSTAINABLE LIVELIHOODS

7 PROJECTS | 92,078 BENEFICIARIES | USD\$3.7 MILLION TOTAL BUDGET

The **SUSTAINABLE LIVELIHOODS** sector aims to increase food security, livelihoods and resilience in the Central Dryzone and upland areas of Myanmar by diversifying livelihoods, introducing climate-smart agricultural approaches such as drip irrigation, solar water pumping and conservation agriculture as well as piloting holistic grazing management practices to address land degradation and desertification for those living within the central Dryzone.

In the upland areas, programs are focused on improving natural resource management through land use planning and sloping agricultural land technologies to diversify livelihoods and reduce dependence on rain fed agriculture, improving water resource management, sustainable forest land management and prevention of land degradation through reducing overuse of Swidden agriculture.

ADRA Myanmar's program address's issues of declining erratic rainfall and increase in extreme weather events resulting from climate change. Projects are focused on building technical knowledge and learning to enable future evidence based planning and policy dialogue with the Government of Myanmar, enabling the development of absorptive, adaptive and transformative capacities, knowledge and strategies for sustainable livelihoods.

Project	Donor/s Location	No. of Beneficiaries	Total USD Budget
ADB IRRIGATION II Irrigation Consultancy II	- Mott Macdonald & ADB - Mandalay & Magway Regions	-	\$100,000
DZPD Dry Zone Program Development	- ADRA International - Pakokku, Magway Region	462	\$50,000

WFP CHIN Enhanced Food Security Initiative	- WFP - Mindat, Chin State	6,558	\$330,188

School Handover Ceremony

Two schools in Alan (2) and Hpar Kat village located in Hlaingbwe Township outside Hpa-an within the Kayin State, were constructed as apart of the SEAQE 'Strengthening Education Access, Quality and Equity in South East Myanmar' project focused on improving SouthEastern Myanmar's quality of education. In honor of the occasion, a 'school handover ceremony' was conducted where representatives from ADRA Myanmar, the local school villagers and staff, state education officers, township education officers and ministers from the Karen State Government were in attendance. A colourful display of cultural dance numbers and local Karen costumes were prepared in honour of the occassion for students to participate in their schools opening.

The two middle schools constructed are two of the three schools the SEAQE project aims to build.

EDUCATION

4 PROJECTS | 31,278 BENEFICIARIES | USD\$7.6 MILLION TOTAL BUDGET

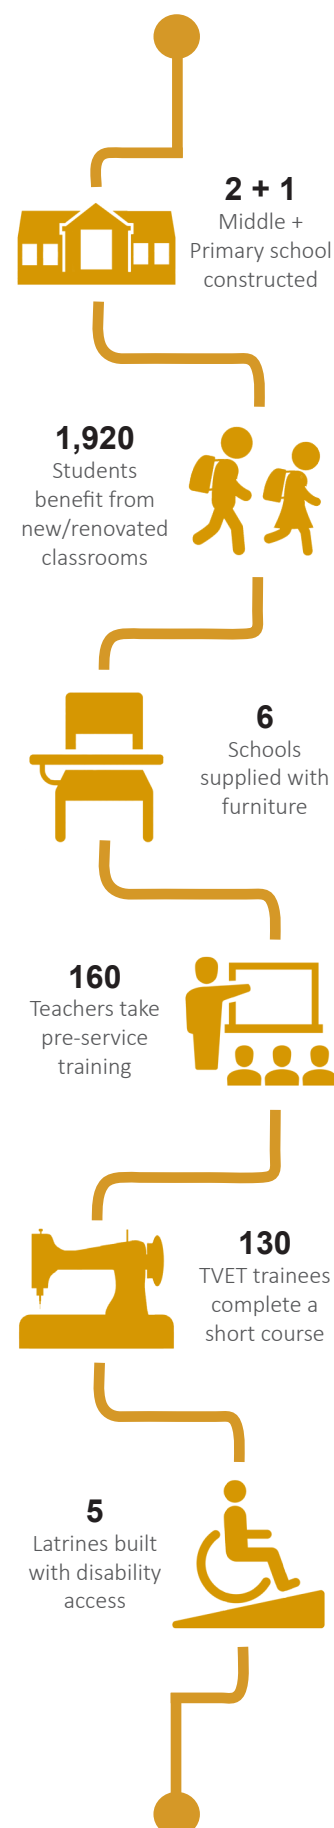

The **EDUCATION** sector aims to provide assistance to teachers, students, schools and the community to enhance local education systems and improve quality of learning through; providing learning materials, rebuilding schools/facilities and providing furniture, constructing new schools, capacity building, teacher training, support to school management committees and parent teacher associations, support for advocacy and policy development, developing WASH infrastructure, carrying out school based hygiene promotion sessions and training in income generation activities.

ADRA Myanmar utilises a holistic learning approach that cuts across sectors to address the learner's needs and foster inclusivity, lessen gender imbalances, increase protection of women/girls/boys particularly those with special needs and positively shape values, attitudes and skills. Advocacy and policy engagement actions are evidence based, multi-stakeholder and developed around synergies that build cooperation and mutual trust contributing towards peace building. ADRA Myanmar collaborates with the government and has developed positive relationships with ethnic education organisations. ADRA Myanmar is also apart of the Education Thematic Working Group and technical working groups participating in national and regional coordination forums.

ADRA Myanmar supports 2,181 schools and 4,463 teachers addressing gaps result from decades of underinvestment in education. For those who have 'missed' the opportunity for a formal education, ADRA Myanmar provides technical and vocational education and training (TVET) in the form of certified market driven short courses by the Myanmar Government and Thai Governments Office for the Vocational Educational Commissioner (OVEC) providing youth with employable skills.

Working with ethnic education organisations in conflict affected areas where children do not have access to an education, ADRA Myanmar provides support through a program of teachers extending education services (TEES), training teachers to establish education services in remote areas and distributing teaching and learning materials to reach 214,094 students.

Project	Donor/s Location	No. of Beneficiaries	Total USD Budget
AES AEON Education Support	- ADRA Japan & AEON - Kayin State & Yangon	1,260	\$1,450,000

JPF EAP III Education Assistance Project III in Kayin State in Myanmar	- ADRA Japan & Japan Platform - Paingkyon Sub Township, Kayin State	2,550	\$280,000
SEAQE Strengthening Education Access, Quality and Equity in South East Myanmar	- ADRA Norway & NORAD - Kayin and Mon States & Tanintharyi Region	24,844	\$5,812,000

Daw Naw Mu's Story

Hailing from Moe Naing Taung in Myanmar's Southeastern Kayin State, Daw Naw Mu, with seven children at home, was undergoing her eighth pregnancy. After a day of labour pain, a CHW (Community Health Worker) trained by ADRA Myanmar's AUP 'Improved Access to and Utilisation of Health Services, Water and Sanitation Facilities and Rights Protection for Unprotected People in Kayin State' project, rushed to see if Daw Naw Mu was able to deliver the baby at home. After initial examinations, it was found that the cervix was still closed. The CHW drove Daw Naw Mu to Paing Kyon Hospital where she was referred to Hpa-an General Hospital to undergo an emergency LSCS for secondary cephalo-pelvic dislocation. After the successful delivery, the baby was sent to neonatal for emergency resuscitation for one week before returning home with her mother Daw Naw Mu both in a stable condition.

"The mother and baby are now healthy and happy, she was very grateful for our kind support".

HEALTH & NUTRITION

5 PROJECTS | 86,064 BENEFICIARIES | USD\$3.7 MILLION TOTAL BUDGET

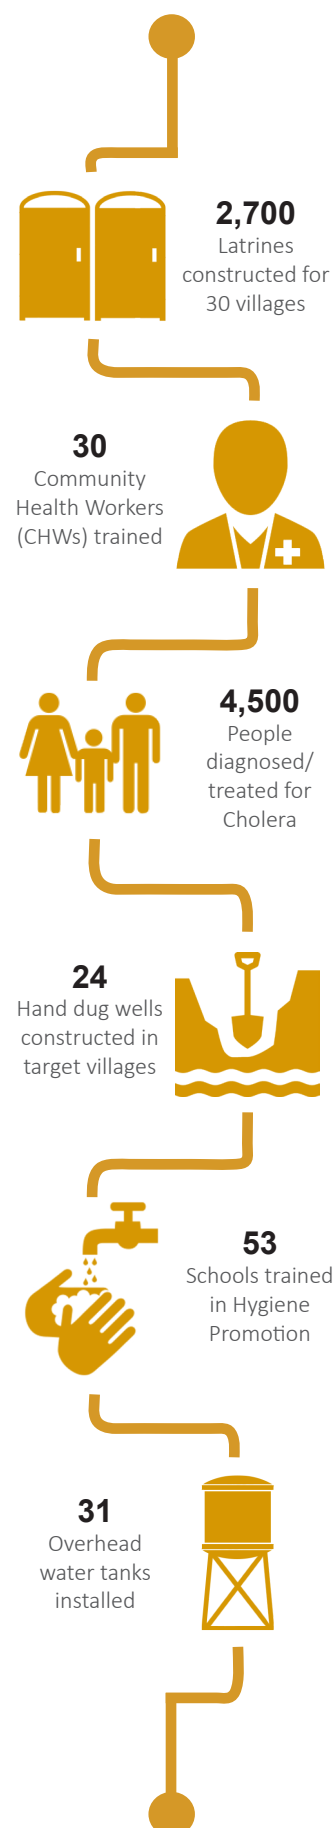

The **HEALTH & NUTRITION** sector aims to provide support to IDPs and vulnerable groups in conflict areas by; training health workers in maternal/newborn/child health and nutrition (MNCH), developing water/sanitation and medical facilities, operating mobile health clinics and providing medical supplies, increasing WASH capacities, promoting healthy living through hygiene education and increasing awareness on major health issues and diseases such as Cholera and malnutrition.

ADRA Myanmar actively supports health in Myanmar through a Memorandum of Understanding with the Ministry of Health since 1993 and has built strong working relationships with local authorities at township, state and national levels as well as ethnic health organisations having negotiated access to Karen Peace Council (KPC) areas since 2007 and BGF/DKBA and KNU controlled areas since 2010.

ADRA Myanmar's MNCH program focuses on high impact activities such as; reducing childbirth related deaths for women and newborns by training auxiliary midwives and health staff in safe birthing practices, developing community support mechanisms, improving community health seeking behaviours, developing equity in health systems and ethnic areas, and improving rural health centres to increase access. Nutrition focuses on the 1,000 day window offering gender sensitive awareness programs and integrated nutrition education with ECD programs as well as increasing staff capacity utilising the PD Health approach addressing malnutrition through; kitchen gardening, food preparation, food preservation and micro-nutrients.

ADRA Myanmar also works with sanitation systems through community led sanitation (CLTS) programs and establishing; tube wells, gravity flow systems and rain collection systems to ensure safe water supplies.

Project	Donor/s Location	No. of Beneficiaries	Total USD Budget
AUP Improved Access to and Utilisation of Health Services, Water and Sanitation Facilities and Rights Protection for Unprotected People in Kayin State	- EuropeAID & Malteser International - Hlaingbwe, Kayin State	64,000	\$1,595,085
CHOLERA Cholera Reponse	- ADRA International - Kayin State & Tanintharyi Region	3,720	\$15,000

Kachin-WinS II WASH in Schools Phase II	- ADRA Australia, ADRA Austria & UNICEF - Waingmaw & Hpakent, Kachin State	355	\$460,000
WATER NETHERLANDS Solar Water Project	- ADRA Netherlands - Magway Region	942	\$26,430

‘Desludging’ Reduces Disease

Decades of intense conflict in Myanmar’s northern Kachin State resulted in thousands of casualties inducing the displacement of civilians. IDP camps were formed where hygiene and sanitation practices were very low including the safe disposal of human waste. Combatting this, the SCAIDP ‘Supporting Conflict Affected IDPs in Kachin State Project’ was implemented with a key activity in ‘desludging’ waste by using a sludge treatment facility, onsite treatment mechanisms and offsite central treatment areas offering training for desludging working group members and WASH staff.

The desludgement process involves pumping waste from latrines into barrels. The barrels are treated, secured tightly and sent to the sludge treatment facility to be tested and flushed before being disinfected to avoid contamination. The successful implementation of a desludging system saw ADRA Myanmar as the first organization to safely manage it and as a result saw a reduction in the risk of spreading disease through fecal matter. In addition, selected IDPs in targeted IDP camps received income from participating within the desludging working groups.

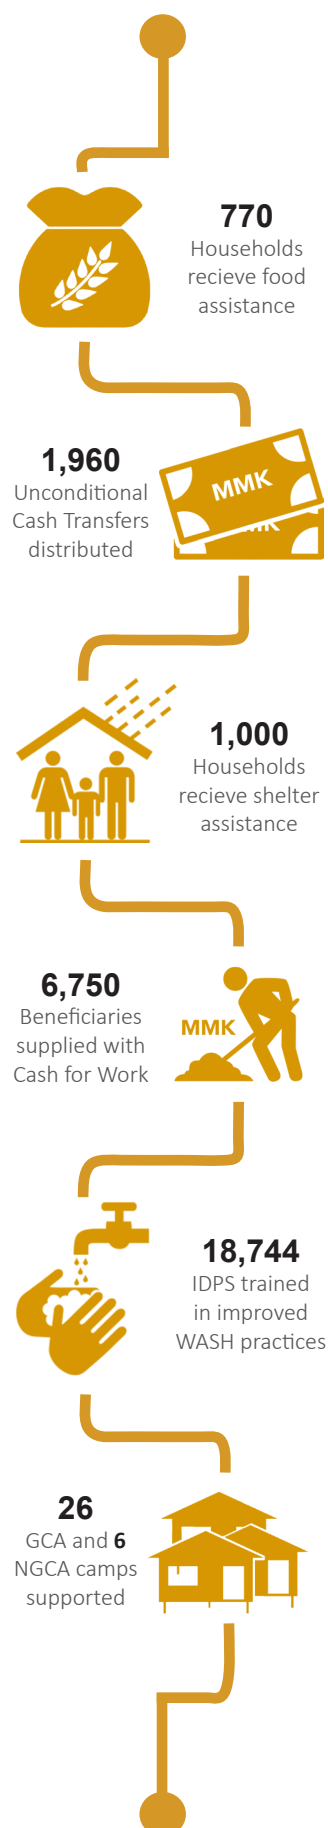

EMERGENCY RESPONSE

8 PROJECTS | 291,718 BENEFICIARIES | USD\$3.8 MILLION TOTAL BUDGET

The **EMERGENCY RESPONSE** sector aims to provide assistance to those affected by natural disasters or conflict through an initial emergency response moving onto ongoing support by supplying cash grants, unconditional cash transfers (UCTs), cash for work, emergency supplies such as shelter kits, and increasing access to clean water/food and sanitation facilities such as latrines and wells.

ADRA Myanmar has a National Emergency Management Plan (NEMP) in place that enables the rapid mobilisation of team members and resources in the event of a disaster. ADRA Myanmar has strong capacities in emergency assessment coordinating with the government and UN cluster systems on joint assessment and humanitarian programming working with UN-OCHA, UNHCR, WFP, UNICEF, Ministry of Social Welfare and Relief and Resettlement. ADRA Myanmar also works in conflict areas on education, health and livelihoods targeting IDPs and affected communities. DRR is mainstreamed in ongoing development/recovery programs training households through hazard, vulnerability and capacity assessments.

Project	Donor/s Location	No. of Beneficiaries	Total USD Budget
CARE Conflict Area Rural Education	- AsianAID Australia - Kayin and Mon States & Tanintharyi Region	2,400	\$134,284
CASE Conflict Area Support for Education	- ADRA Germany & ECHO - Kachin, Shan, Kayah & Kayin States	218,385	\$1,142,342
